

SOMESWARI PERLA

Visakhapatnam, India | 8500206805 | perlasony7910@gmail.com | <https://www.linkedin.com/in/perla-sony-087b7a363> | <https://github.com/perlasony7910-source>

Profile Summary

Motivated Electronics and Communication Engineering (ECE) graduate with a strong foundation in programming, embedded systems, and communication concepts. Skilled in Python, Java, and C programming, with hands-on experience in Arduino and sensor-based projects. Familiar with analog and digital communication systems and basic VLSI concepts. Seeking an entry-level role where I can apply my technical knowledge, enhance my skills, and grow as an engineer

Technical Skills

- **Programming Languages:** Python, Java, C Programming, VLSI (basics)
 - **Data & Visualization Libraries:** Pandas, NumPy, Seaborn, Matplotlib
 - **Embedded Systems:** Sensors and Arduino
 - **Core Concepts:** Analog and Digital Communication Systems
-

Projects

1. Pocket Piano (Mini Electronic Keyboard)

- **Role:** Electronics Engineer / Embedded Systems Developer
 - **Type:** Academic / Mini Project
 - **Tools & Technologies :** 555 Timer IC / Arduino UNO, Push Buttons, Resistors, Capacitors, Speaker/Buzzer, Breadboard / PCB, Power Supply (Battery)
 - Developed a mini electronic piano using push buttons and a tone-generation circuit to produce musical notes. The project demonstrates basic audio signal generation, frequency control, and embedded hardware design.
 - **Outcome:** Successfully created a low-cost, portable electronic piano capable of producing multiple musical notes, Improved understanding of oscillators, frequency generation, and basic audio electronics.
-

Education

B.Tech. in Electronics and communication Engineering | Dadi Institute of Engineering Technology | Anakapalle, Andhra Pradesh | May 2027 | CGPA:8.8

Diploma in Electronics and communication Engineering | Dadi Institute of Engineering and Technology | Anakapalle | April 2023 | Percentage:84.25

Board of Secondary Education - Z P High School | Gangavaram | Marks:566

Internship Experience (Optional)

Diploma Intern | Bharat Heavy Electricals Limited (BHEL)

Dec 2022 – June 2023

- Studied the working principles of electrical machines, protection systems, and industrial control panels used in thermal power plants.
- Prepared internship reports and technical documentation under the guidance of senior engineers.
- Assisted engineers in testing, inspection, and maintenance procedures of electrical and control systems.

Achievements & Certifications

- **Certification:** Process Mining Virtual Internship - issued by Celonis, Dec 2024 | Embedded System Developer Virtual Internship - issued by Microchip, March 2025
- **Soft Skills Highlight:** Problem-solving and analytical thinking, Leadership and initiative

Languages: English, Telugu, Hindi (Optional)
